Total VAERS counts and death counts for the past decade

This is a 5,427% increase. Since the excess in AEs are NOT due to excess in doses administered*, what explains this?

mean for the past decade = 155.7

Dr. Jessica Rose has given another presentation based on her analysis of the CDC and FDA VAERS (*Vaccine Adverse Event Reporting System*) data.

Dr. Jessica Rose has a BSc in Applied Mathematics and completed her MSc in Immunology at Memorial University of Newfoundland in Canada. She completed her PhD in Computational Biology at Bar Ilan University and then did her first Post Doctorate at the Hebrew University of Jerusalem in Molecular Biology.

To date, she has compiled some of the best analysis of the VAERS data that I have seen this year. We have published some of her previous presentations:

Total VAERS counts and death counts for the past decade

She recently made a presentation to the World Council for Health, and her analysis of the data in VAERS revealed that in 2021 there has been a 5,427% increase in deaths following COVID-19 shots, and a 1,373% increase in adverse reactions following COVID-19 shots, as compared to all other vaccines given out for the past 10 years.

shot has reported an adverse event.

In one of her previous analysis' she determined that the data in VAERS is under-reported by a factor of X42. This would mean that about one out of every 8 individuals receiving a COVID-19 shot is reporting an adverse reaction.

This is the kind of analysis on the VAERS data that the CDC and FDA are supposed to be doing, and then removing experimental products that are killing and harming so many people.

But as we have exposed so many times over the past decade, these federal agencies are very corrupt, and the people running them go on to take lucrative positions with large pharmaceutical companies. See:

Public health is not their concern, but profits for Big Pharma.

**Dr. Andrew Moulden:
Every Vaccine
Produces Harm**

Canadian physician Dr. Andrew Moulden provided clear scientific evidence to prove that every dose of vaccine given to a child or an adult produces harm. The truth that he uncovered was rejected by the conventional medical system and the pharmaceutical industry. Nevertheless, his warning and his message to America remains as a solid legacy of the man who stood up against big pharma and their program to vaccinate every person on the Earth.

Dr. Moulden died unexpectedly in November of 2013 at age 49.

Because of the strong opposition from big pharma concerning Dr. Moulden's research, we became concerned that the name of this brilliant researcher and his life's work had nearly been deleted from the internet. His reputation was being disparaged, and his message of warning and hope was being distorted and buried without a tombstone. This book summarizes his teaching and is a must-read for everyone who wants to learn the "other-side" of the vaccine debate that the mainstream media routinely censors.
